Pox, Small or Chicken. PALO PINTO, TEX. April 20, 1891.

On the 11th day of this month a report came to Palo Pinto that smokhox had ap-peared in the town of Mineral Wells, a small village east of Palo Pinto, about four-teen miles. Your correspondent tried to

find some one who knew the case to be smallpox as reported, but no one could give the desired information. On Monday, the 13th instant, a report came that there was a case of chickenpox in the town, but no smallpox. The citizens of Palo Pinto did take some action in the matter but no great amount of excitement prevailed here, most of the people here feeling proof against smallpox. It seems that about thirty-nine women children, boys and old men, were with the nation reported to have smallpox with the patient reported to have smallpox and we got out of his room and went through the town of Mineral Wells, and to through the town of Mineral Wells, and to this good hour no one has gone to beed with this disease. It doesn't look much like smallpox. The first good job the Dallas News correspondent here has done was to rush a report to that paper stating that the country was all excited. It seems that the correspondent wanted news for his paper or desired to injure our neighbors by reporting smallpox. The commissioners' court of Palo Pinto county came together and passed orders putting under control that case of pox, small or chicken, as they may be, and put a few doctors on a salary which seems about all there is of the matter. The Gazette having some reputation at stake for ZETTE having some reputation at stake for truth, we did not wish to soil it by report-ing smallpox or anything else that we do not know to be true. All we know of small-pox at Mineral Wells is hearsay. We have seen none, and will hardly visit the party sald to have the disease to find it out.

New York, April 21.—After the expenditure of so much force as was shown yesterday, the bulls were naturally sanguing this morning. No real weakness in the market was apparent, but the buying power seemed for a moment to have exhausted itself. Trading was not very active and prices hung around yesterday's, closing strong.

The stock of the morning was Union Pacific. This advanced I noint on the nub-

cine. This advanced 1 point on the pub-lication of the February statement, show-ing an increase in net earnings of 869,652. although the preliminary statement issued early this month showed a net increase of

The announcement was made that \$1,500,-The announcement was made that \$1.500,-000 more of gold will go out to-morrow, making \$1.500,000 for the week. The rates for exchange and the state-ments of bankers still show that these shipments are made only on payment of a considerable premium. In consequence the interior movement of money is growing stronger and in favor of this country, as is shown by the fact that the banks have gained \$700.045 through the sub-treasury operations since Friday. The whisky trust was strong on the state-

ment printed elsewhere. The market closed below yesterday's for most of the grangers and Southwestern roads, and above for many of the specialties. Railway bonds were active and generally strong in early dealings. Later, prices re-

acted somewhat, Among the notable features were Oregon improvement 5's, Northern Pacific 5's, Reading issues, St. Louis, Arkansas and Texas 2's, and Louisville 2's. Advances and declines for the day were:
